# “Dream-e-scape” - Immersive Interactive Art Installation

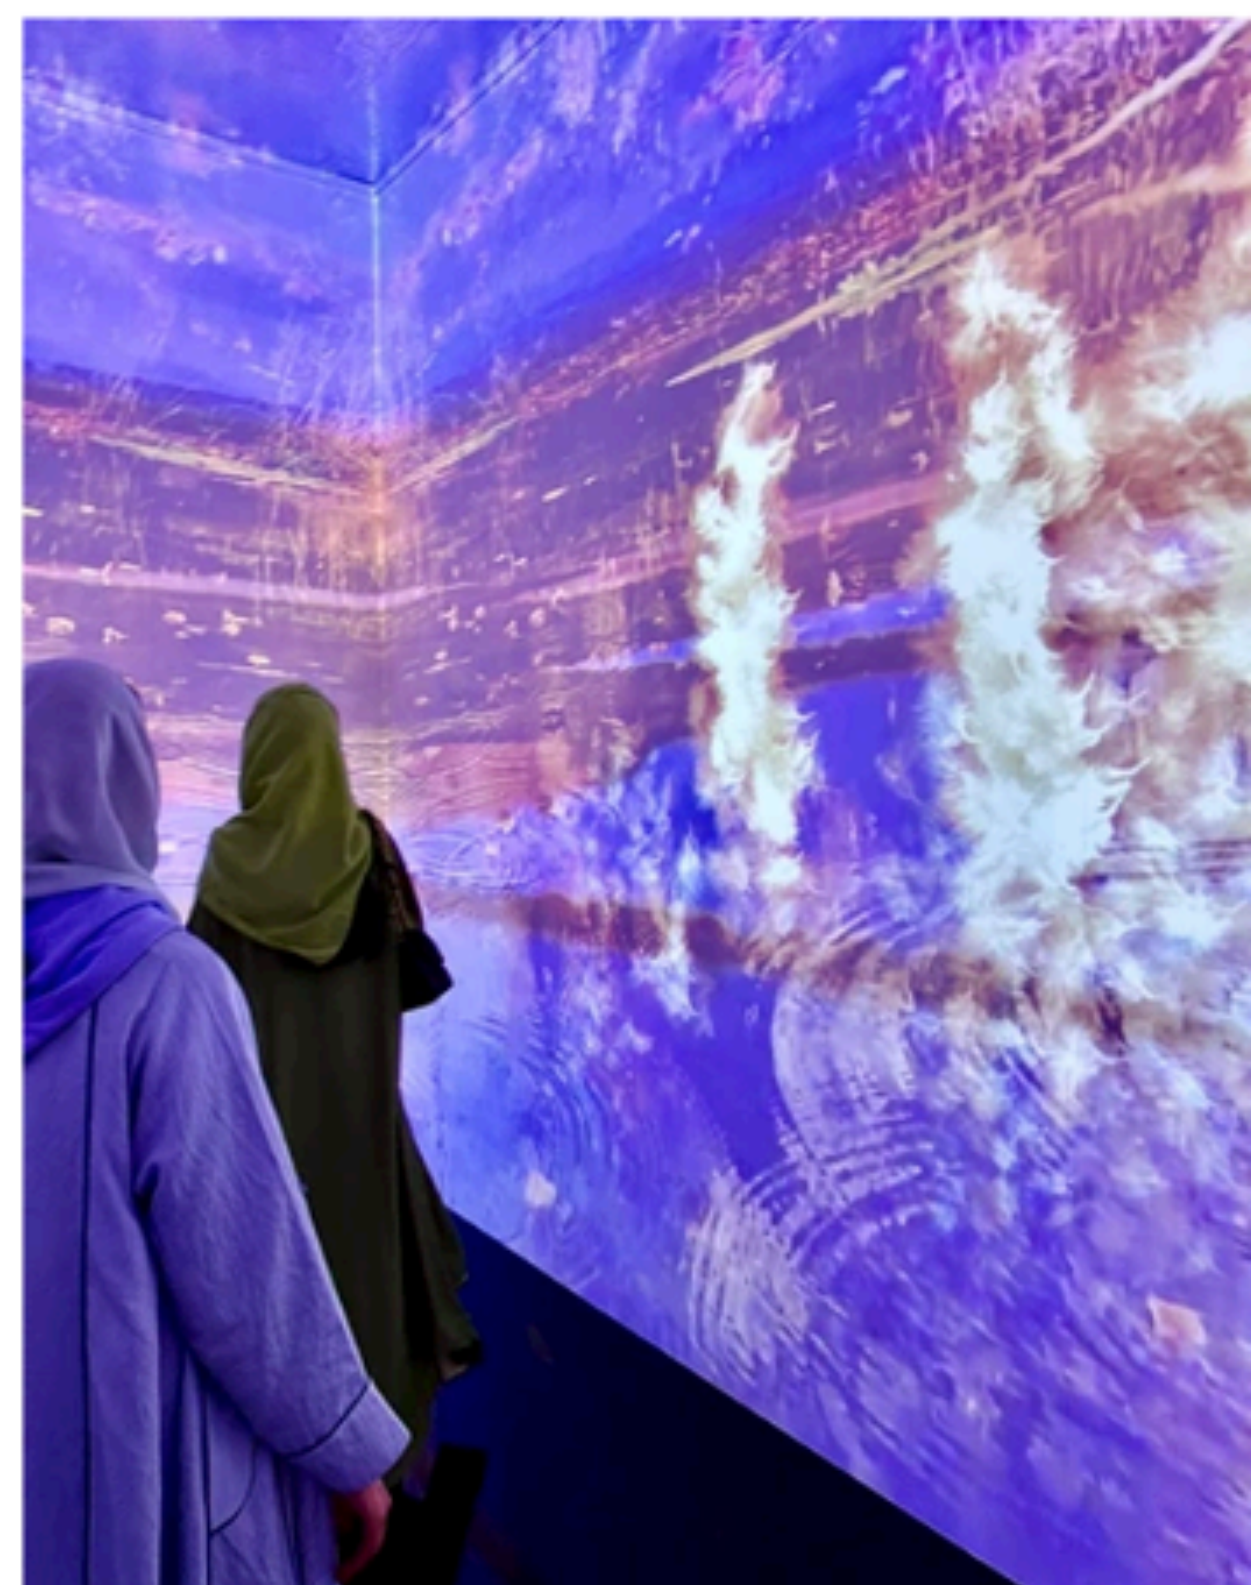

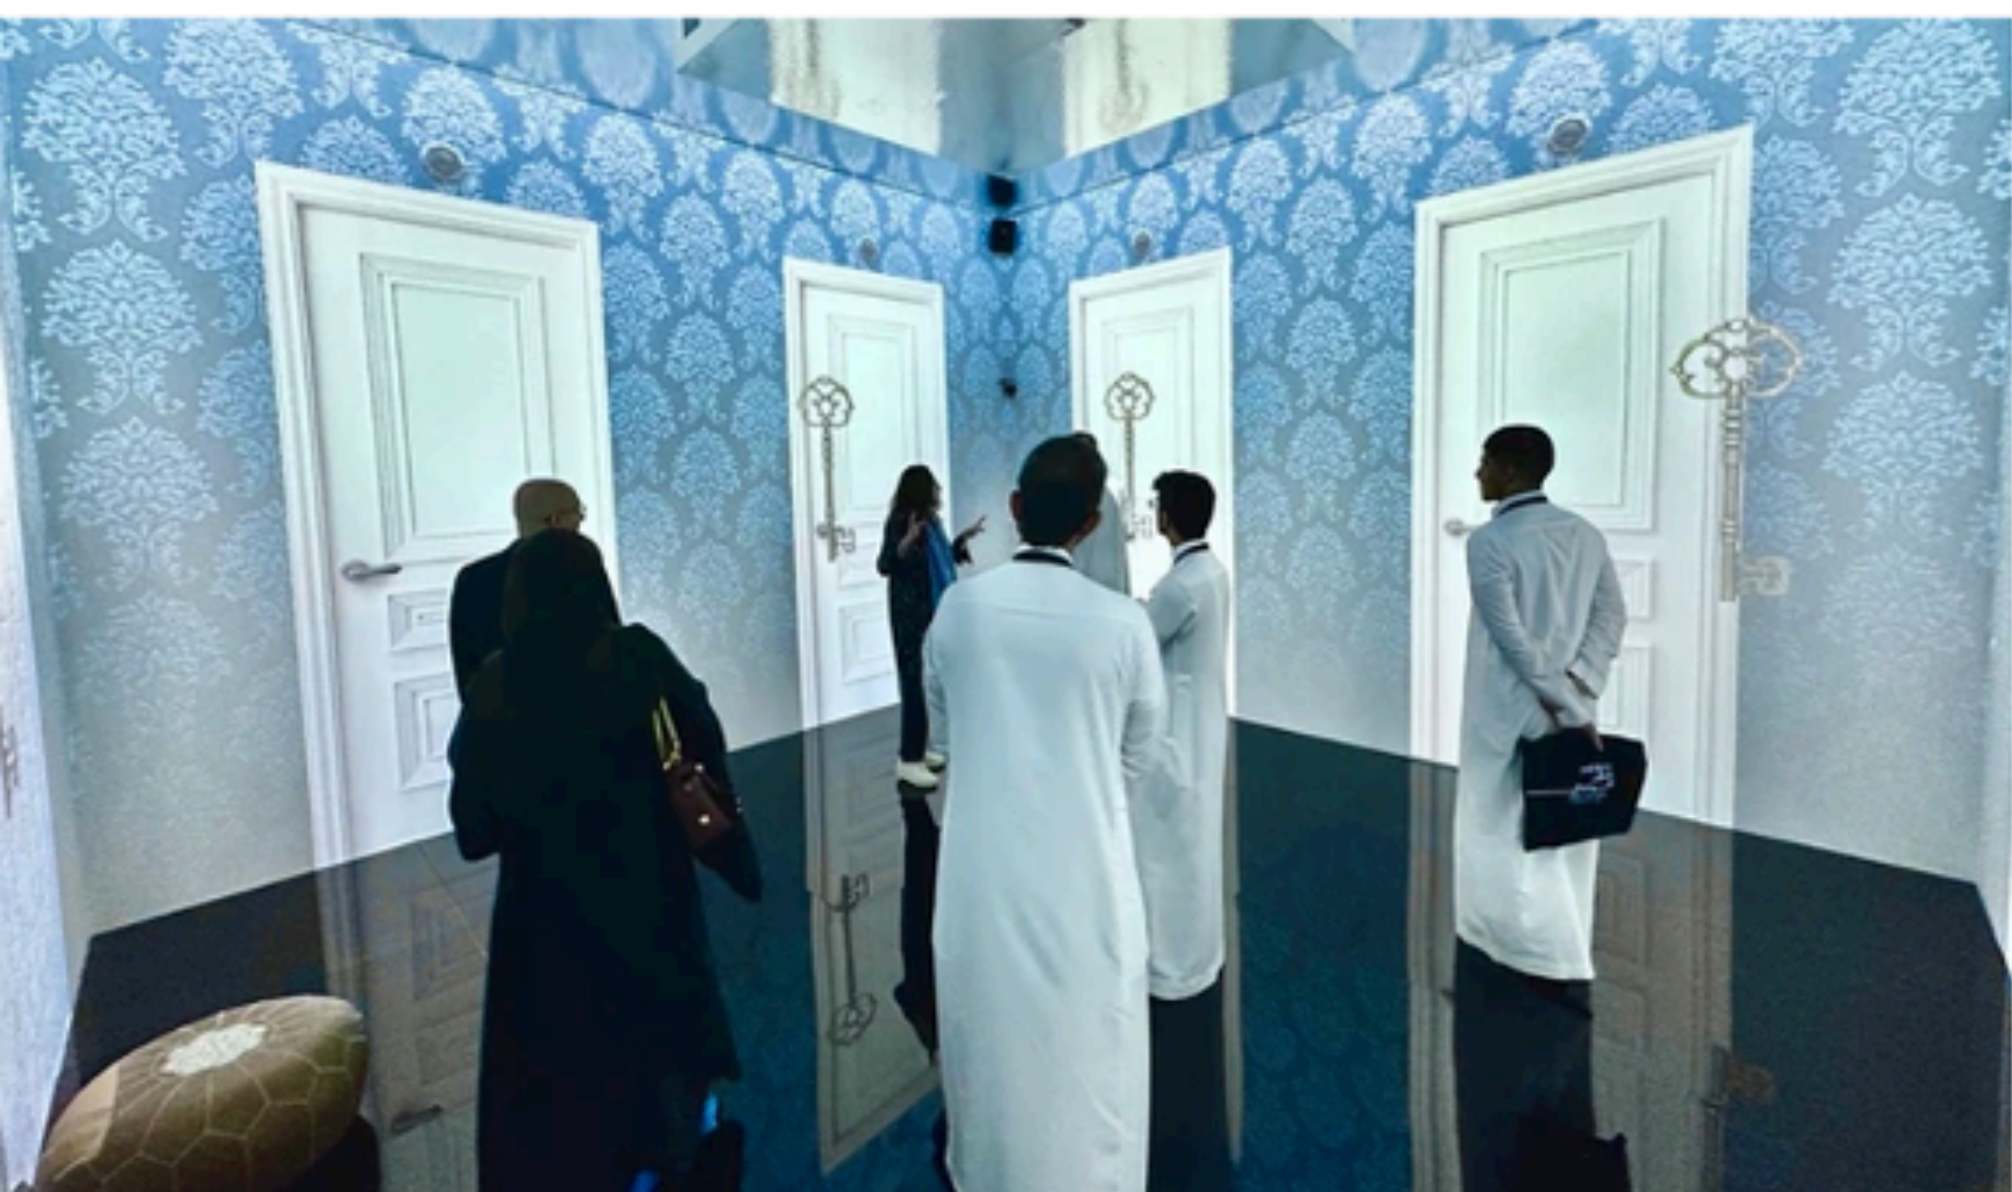

Conceived and Directed by Laia Cabrera & Isabelle Duverger - [laiacabreraco.com/dream-e-scape](http://laiacabreraco.com/dream-e-scape)

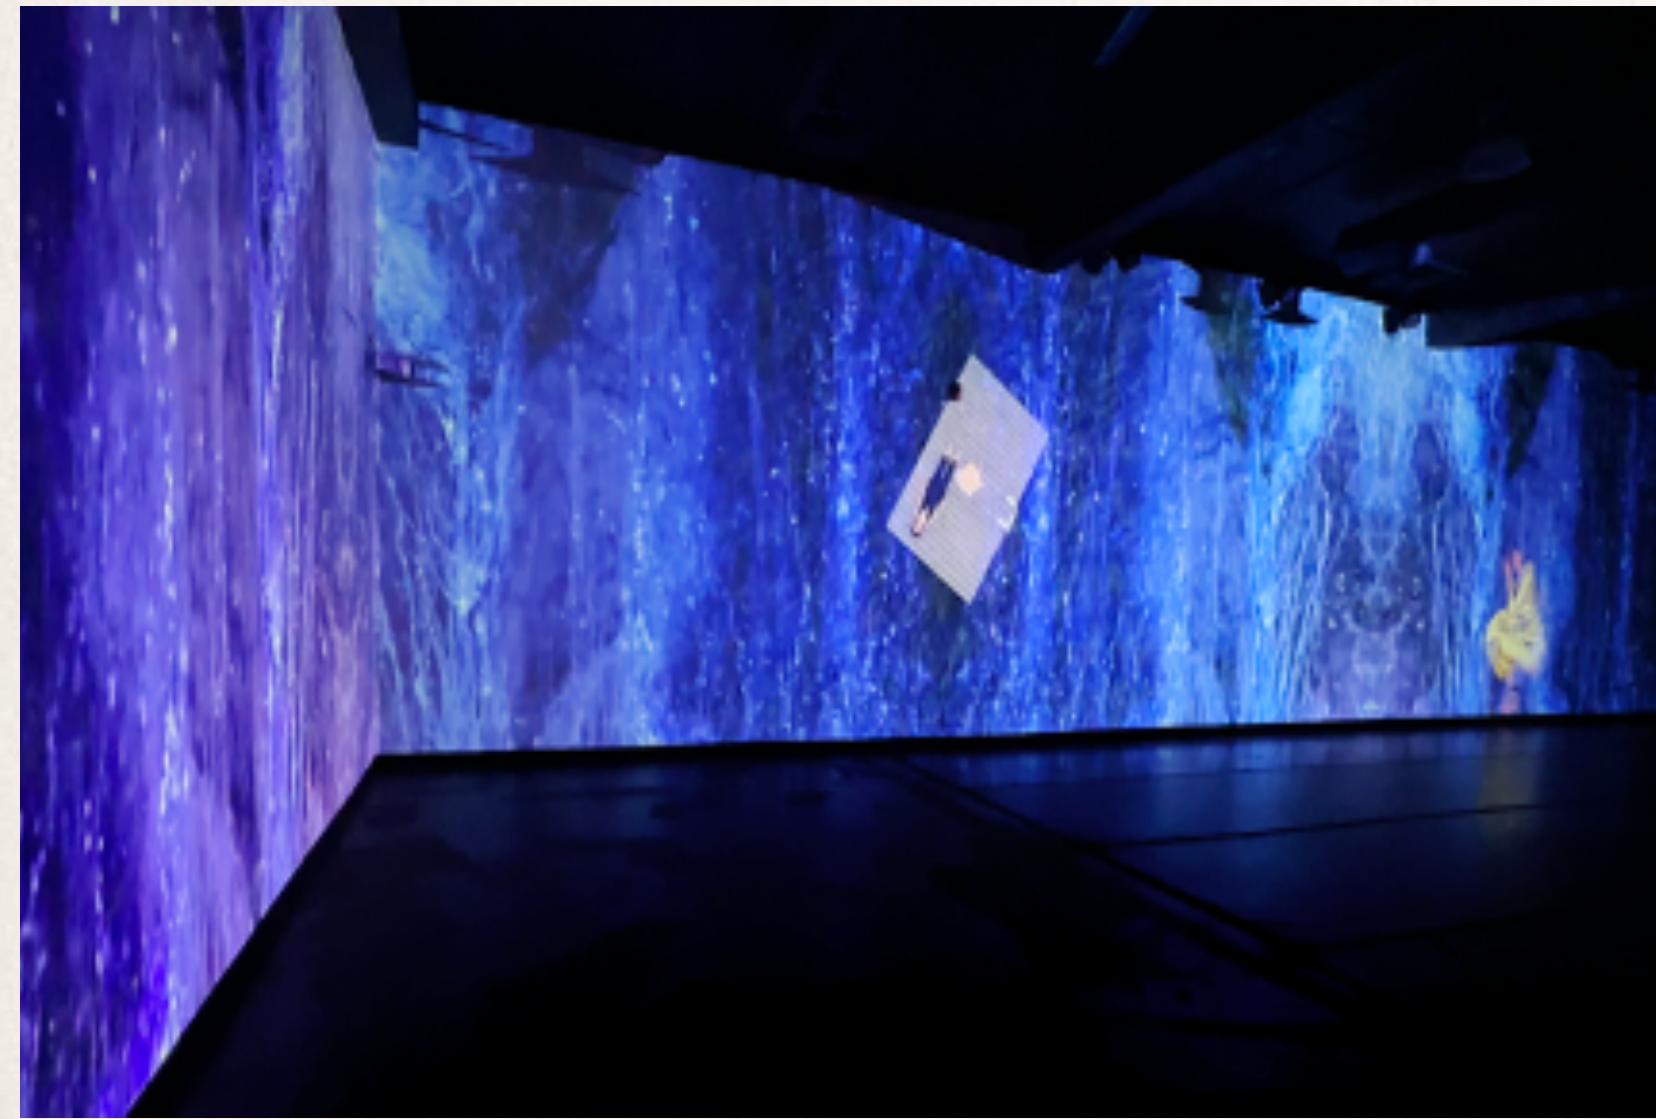

Interactive Design by Aniol Saurina Masó and Jianhao Ma | Original music composition by Nana Simopoulos | Cinematography and Editing by Laia Cabrera & Isabelle Duverger

an immersive and interactive 360° installation about the mind and the search for awareness in which the public experiences a sensory voyage that captures the surreal nature of dreams, where the line is blurred between the physical and the digital world, between the real and the imaginary. “Dream-e-scape” is based on the state of sleep, an imaginary journey one can experience with the eyes wide open. The piece explores the concept of lucid dreaming, the sleep state in which we become aware we are dreaming and have the ability to control the dream and gain agency over our thoughts and desires. We are testing reality: Are we awake?

### FEATURED PRESENTATION / THE NOW

THE NOW, a journey into magical worlds, opening doors to hidden places and participatory environments through videoart, illustration-animation, video mapping and interactivity. THE NOW explores transitory spaces and unseen parallel realities, a time travel cinematic voyage to visually striking places, live painting, animated characters and evolving narratives. #thenow

### FEATURED ARTISTS / LAIA CABRERA AND ISABELLE DUVERGER

Visual design and art installation created by awarded creative team LAIA CABRERA & Co, founded by Spanish filmmaker and video artist Laia Cabrera and French animator and projection mapping artist Isabelle Duverger.

Searching for new ways of using the space and visual imaginary as a tool for narrative storytelling and audience connection, driven by both scenographic and dramaturgical aspect and creating immersive content experiences in contemporary artwork. @laiacabreraco @isabelleduverger

### FEATURED INTERACTIVITY / NOIRFLUX

Interaction artists Lorne Covington and Bill Saiff, working as NOIRFLUX, create responsive art environments for immersive exploration, expression, and education. Using innovation in multi-person gestural interfaces, advanced spatial sensing, and physical and mixed reality techniques, their work effortlessly extends visitors' capabilities and senses, focusing on the intangible space between action and response. @noirflux @noirfluxarts

Karan Parikh, an immersive experience developer. His core areas of focus are mixed reality, interaction design, spatial AR, adaptive and binaural audio. @karon\_immersive
